EDUCATION

Centurion University of Technology and Management

Bachelor of Technology in Computer Science

Expected Graduation: 2028

Odisha, India

Sep 2024 – Sep 2028

Current GPA: 9.6

Dev International School

Higher Secondary Education

May 2021 – May 2023

Percentage : 79%

PROJECTS

TechFixAI — Voice-to-Ticket System

- ❖ Built an async voice-to-ticket pipeline converting Japanese incident reports into structured support tickets (STT → translation → ticket generation)
- ❖ Implemented deterministic assignment engine mapping incidents to developers based on severity and domain logic
- ❖ Achieved end-to-end automation of incident triage, eliminating manual processing and enabling real-time ticket creation.

GreenGPT — AI Environmental Intelligence Platform

- ❖ Built an AI document intelligence system that converts 500+ page environmental reports into structured insights (risk, metrics, recommendations)
- ❖ Implemented domain-specific prompt pipelines for consistent JSON outputs and automated risk assessment aligned with regulations
- ❖ Achieved ~30s analysis time, reducing manual report processing from weeks to seconds.

ShipGuard AI — Real-time Logistics Risk Intelligence Platform

- ❖ Built a real-time logistics monitoring system with webhook ingestion and Firestore sync for live shipment tracking across carriers
- ❖ Implemented dynamic risk scoring and alert system using shipment status, route, and external signals (weather/news)
- ❖ Achieved instant visibility and proactive risk detection for shipment delays through real-time dashboards and alerts.

CERTIFICATIONS AND ACHIEVEMENTS

Zenotrone Hackathon Participant – DevSomWare × GeeksforGeeks: Participated in a competitive development challenge, solving real-world problems under time constraints.

Hack For Green Bharat Hackathon – Participant (Online Round): Engaged in sustainability-focused problem solving and collaborative development

Hackathon x Hack2Skill – Participant: Worked on rapid prototyping and solution development in a competitive hackathon environment.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, Java, C

Web Technologies: HTML5, CSS3, JavaScript (ES6+), React, TypeScript

Databases: MySQL, Firebase, MongoDB

Tools & Platforms: Git, GitHub, VS Code

Areas of Interest: Machine Learning, Artificial Intelligence, Web Development
